# Internship Offer Letter

| | |
|---|---|
| **Student Name** | : Kantayapalem Meghana |
| **Stream** | : B.Tech |
| **Branch** | : IT |
| **Institute Name** | : BVRIT Hyderabad College of Engineering for Women |
| **Internship Domain** | : AWS Data Engineering |
| **Internship Duration** | : January 2026 - March 2026 |
| **AICTE Student ID** | : STU6719387c547631729706108 |

We are pleased to inform you that you have been selected for the 10-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

**Internship Structure & Evaluation:**

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

**The week wise Structure of the Internship is as Follows:**

| Week | Module | Description |
|---|---|---|
| Week 1 | Data Engineering for Data-Driven Organizations | Covers course goals, prerequisites, data-driven decision-making, pipelines, the data engineer's role, modern strategies, and hands-on practice with Amazon S3. |
| Week 2 | Data Elements and Pipeline Design Principles | Covers the five Vs of data, data quality, AWS Well-Architected Framework, modern architectures, pipelines, streaming analytics, and hands-on Athena querying |
| Week 3 | Securing, Scaling, and Ingesting Data Pipelines | Covers cloud security, securing analytics and ML workloads, scaling infrastructure, ETL vs ELT, data wrangling, cleaning, enriching, validating, and publishing. |
| Week 4 | Efficient Data Management & Big Data | Covers batch vs. stream ingestion, ETL with AWS Glue and Kinesis, IoT data, modern storage, pipelines, security, and Redshift hands-on. |
| Week 5 | Big Data & Preparing Data for Machine Learning | Covers big data processing with Hadoop, Spark, EMR, and ML lifecycle on AWS, including SageMaker, Canvas, data preparation, modeling, and deployment. |
| Week 6 | Analyzing and Visualizing Data | Covers AWS tool selection and comparison, with hands-on data analysis using IoT Analytics, QuickSight, and Kinesis Data Firehose. |
| Week 7 | Automating the Pipeline | Covers automating infrastructure deployment and CI/CD with Step Functions, including a hands-on lab on ETL pipelines using Athena |
| Week 8 | Bridging to Certification | Provides an overview of AWS certifications, including available tracks, benefits, and preparation resources. |
| Week 9 | Assessment | Assessment |
| Week 10 | Final Credential Validation | Final Credential Validation |

**Note: There is no stipend associated with this internship.**

We congratulate you on your selection and wish you a successful learning journey.

**Bibek Ranjan**
Director, EduSkills
