SKILLS

Programming Languages: c,Python,JJava(basics)
Web Technologies: HTML, CSS, JavaScript

- Currently I am Learning DSA(Data Structures and Algorithms)

PROJECT

Caesar Cipher Cryptography
During my , I undertook a cryptography project utilizing the C programming language. Through hands-on coding and rigorous testing, I gained valuable insights into the principles of cryptography and honed my skills in secure coding practices. This experience enhanced my understanding of cybersecurity concepts and prepared me for tackling real-world encryption challenges.
